

VISION

Educator-turned-technologist with a strong mathematics foundation and 8 years of project management experience, passionate about using AI and data to build smarter solutions and drive real-world impact.

OBJECTIVES

- 1. Apply 6 years of mathematical thinking to tech and AI roles that solve real problems.
- 2. Use data and analytical skills to help teams build smarter, more effective solutions.
- 3. Grow fast in a technology environment — bringing structure, curiosity, and a fresh perspective.

EXPERIENCE

Mathematics Teacher

2019 – Present

Ministry of Education — UAE

- Delivered MOE curriculum-aligned mathematics instruction to 150+ students across multiple grade levels.
- Prepared and coached students for EmSAT mathematics assessments, tracking progress against national benchmarks.
- Designed data-driven lesson plans using digital platforms, increasing student engagement by 30%.
- Conducted regular grade analysis and used UAE School Inspection Framework (USIF) standards to guide teaching quality.
- Led curriculum innovation as school leadership licence holder (MOE, 2025).

Mid Leadership — School Administrator

2019 – Present

Ministry of Education — UAE

- Managed school safety, E-Maturity, and E-Safety files in compliance with MOE and USIF standards.
- Led grade analysis cycles aligned to EmSAT performance targets and MOE assessment policy.
- Coordinated school timetable, executive planning, and scheduling across departments.
- Oversaw student life quality and wellbeing programmes in line with MOE wellbeing framework.
- Supported school improvement planning using USIF inspection criteria and continuous development goals.
